The domestic cat is a member of the cat family, the felids, which are a rapidly evolving family of mammals that share a common ancestor only 10–15 million years ago and include lions, tigers, cougars and many others. Within this family, domestic cats (*Felis catus*) are part of the genus *Felis*, which is a group of small cats containing about seven species (depending upon classification scheme).

Of all the potential disaster threats we face today, an attack by EMP is probably one of the scariest. Properly carried out, an EMP has the potential of sending our lifestyle back by about 100 years, forcing us to live much as our great-grandparents did. The loss of electrical power would turn most of the appliances into useless junk, while the infrastructure we all depend on would suddenly ...
